The Little Giant Classic

- Use the Classic in multiple configurations, including A-frame, extension, 90-degree ladders and six different scaffolding positions—buy one ladder to do the job of five
- Use the right ladder for the right job every time and avoid 95 percent of all ladder-related safety issues
- Reach some of the toughest areas such as the space above the staircase, vaulted ceilings; and use your ladder over and around obstacles
- The Little Giant Classic exceeds all OSHA and ANSI standards and is industrial rated up to 300 lbs.
